

LPD 2024.1

„Linux & Open Source hands on“ is the theme of the Linux Presentation Day.

Individual local Linux User Groups bring this event to life. It is directed to beginners, new users and people considering to switch to Linux.

You as hosting Linux User Group, school, university, company etc. are the driving force of this event.

The local events are collected here. We support you with material you may use for advertising.

Organize an event

This is how you do it:

1. [Sign up to the LPD "public" mailinglist](#)
2. [Add your LUG to linux-events.org](#)
3. [Add your LPD to linux-events.org](#)
4. [Read through the tips how to organize an LPD event](#)
5. [Advertise for your LPD in your region \(and in general\)](#)
6. Be present at the L-P-D to welcome your visitors

Advertise for the L-P-D

If you participate actively or not, **advertise the event** to attract many visitors.

Share the [L-P-D video](#) with friends in your private social media channels.
