

Invite friends via Social Media

We prepared two videos you may use to advertise for the Linux-Presentation-Day in **Social Media** or you may as well put it on **your website**.

Feel free to share this page or video already in the Linux community.

There are two options:

1. Download the video and upload it by yourself in Social Media
2. Share an already created post

At the very day of the L-P-D it is worth to again post an invitation in private media channels such as LinkedIn, Facebook, etc.

[lpd-invitation-generic_desktop-en0001-1200.mp4](#)

The invitation video for the Linux-Presentation-Day

[Download MP4](#)

Youtube video to share
PeerTube video to share (german for now)

Via Social Media we can reach people outside of the Linux-Community.

The idea is this:

- It would be awesome to have our hashtags included: ** #LinuxPresentationDay #LPD #OpenSource

We appreciate a link back to <http://l-p-d.org>

Licence: CC BY-SA-4

A public post could look like this:

```
□ << LOCATION, DATE >> □ We want to show you Linux □ Invite your friends! □  
https://l-p-d.org/en/ #LinuxPresentationDay #LPD #OpenSource Come visit us!
```

A longer post could look like this:

```
<< LOCATION, DATE >>: Linux-Presentation-Day.  
We want to show you Linux - visit us and invite your friends.
```

□ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □
